RE: Compex module for RM-58

I confirm that VNL product , RM-58 uses the Compex Module WLM200N5-26 without hardware and configuration changes. The TX power level is reduced for meeting FCC EIRP requirements when high gain antenna used is 21 dBi typical

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dhruv' or 'Dhruvi', is written over a light purple rectangular background.
